

# Virus

## Zaskia

like a virus needs a body  
as soft tissue feeds on blood  
someday i'll find you ? the urge is here  
ooo-ooo-ooo-oooh

like a mushroom on a tree trunk  
as the protein transmutes  
i knock on your skin ? and i am in  
ooo-ooo-ooo-oooh  
the perfect match ? you and me  
i adapt ? contagious  
you open up ? say welcome  
like a flame that seeks explosives

as gun powder needs a war  
i feast inside you ? my host is you  
ooo-ooo-ooo-oooh  
the perfect match ? you and i  
you fail to resist  
my crystalline charm  
like a virus ? patient hunter  
i'm waiting for you ? i'm starving for you  
ooo-ooo-ooo-oooh  
my sweet adversary  
my sweet adversary  
my sweet adversary
