

# Dim the Lights

## Wild Ones

Parked outside your window  
You know it's me, so I wait  
Holding onto nothing  
We're pulling our new freeways  
Our youth is gone  
And so we revel in the new age  
And I fall asleep always dreaming of the big stage  
You and me You're in my car  
We're two comets falling far away from the sun  
It fills me up  
I wanna go where I could turn into anyone Dim the lights so we unwind in disguise  
Play the record, make me move backwards in time  
When I'm alone I feel a slow ticking wildness in my mind  
It's late at night and I am been blinded with the city light in my eyes I've got the fare in my pocket, we take the  
night train  
I've got the fare in my pocket, will you take me home Down underground  
We see the men and women shuffling off to work  
The screeching sound  
I hear the railing as we're heaving off in the dark You're in my car  
We're two comets falling far away from the sun  
Oh, how it fills me up  
I wanna go where I could turn into anyone Dim the light so we can unwind in disguise  
Play the record, make me move backwards in time  
When I'm alone I feel a slow ticking wildness in my mind  
It's late at night and I am blinded by the city lights in my eyes
