The Planets Bend Between Us

Snow Patrol

The winter's marked the earth It's floored was frozen glass You slip into my arms And you quickly correct yourselfYour freezing speech bubbles Seem to hold your words aloft I want the smoky clouds of laughter To swim about me forever moreI will race you to the waterside And from the edge of Ireland shout out loud So they could hear it in America It's all for youThe shells crack under our shoes Like punctuation points The planets bend between us A hundred million suns and stars The sea filled in the silence Before you sank those words And now even in the darkness I can see how happy you areI will race you to the waterside And from the edge of Ireland shout out loud So they could hear it in America It's all for you, it's all for you It's all for you, it's all for you It's all for you
