

# Yoga Is As Yoga Does

## Elvis Presley

Well, I can see that you and yoga will never do  
Yoga is as yoga does, there's no in between  
You're either with it on the ball or you've blown the scene  
I can see it lookin' at you, you just can't get settled  
How can I even move, twistin' like a pretzel?  
Yoga is as yoga does there's no in between  
You're either with it all the way  
Or you've blown the scene  
Or you've blown the scene  
Come on, come on, untwist my legs, pull my arms a lot  
How did I get so tied up in this yoga knot?  
You tell me just how I can take this yoga serious  
When all it ever gives to me is a pain in my posteriors  
Yoga is as yoga does there's no in between  
You're either with it all the way  
Or you've blown the scene  
Or you've blown the scene  
Stand upside down on your head, feet against the wall  
A simple yoga exercise done by one and all  
Now cross your eyes and hold your breath, look just like a clown  
Yoga's sure to catch you if you come falling down  
Yoga is as yoga does there's no in between  
You're either with it all the way  
Or you've blown the scene  
Or you've blown the scene  
Yoga is as yoga does there's no in between  
You're either with it all the way  
Or you've blown the scene  
Or you've blown the scene
