

# Shoulda Let U Go

Sean Kingston

Oh, oh

Oh, oh

I'm losing my mind, 'cause she's one of a kind,  
Oh, she's so fine, gotta make her mine,  
Everything I do is only for you, 'cause you're my boo,  
Yes it's so true.

My heart is so broken it's splitting in two,  
Looking so sad 'cause I'm feeling so through,  
Missing the days of being with you,  
'Cause I was stuck to you, girl.  
Feel like I'm trapped and I cannot get loose,  
'Cause I'm so lost I don't know what to do,  
Yeah, I'm so bad and I'm confused, but I'm still stuck to you, girl.

'Cause even when I met you, yeah I knew I couldn't have you,  
I knew that I would try, and mess it up, what can I do?  
And even when you're gone and all my friends all say I'm crazy,  
Say it ain't right, I want you to have my baby.

[Chorus]

Oh, shoulda let you go

Oh, shoulda let you go

Oh, shoulda let you go

Oh, let you go

Now I'm sitting home, feeling all alone,  
Wish you had a clone, 'cause girl you got me gone.  
Here in this chair, wishing you was here,  
But now it's getting clear, that you don't even care.

My heart is so broken it's splitting in two,  
Looking so sad 'cause I'm feeling so through,  
Missing the days of being with you,  
'Cause I was stuck to you, girl.  
Feel like I'm trapped and I cannot get loose,  
'Cause I'm so lost I don't know what to do,  
Yeah, I'm so bad and I'm confused, but I'm still stuck to you, girl.

'Cause even when I met you, yeah I knew I couldn't have you,  
I knew that I would try, and mess it up, what can I do?  
And even when you're gone and all my friends all say I'm crazy,  
Say it ain't right, I want you to have my baby.

[Chorus]

(Shoulda let you go)  
But if I walked away, I know you'd come crawling back,  
(Shoulda let you go)  
You're playing hard to get, and I know it's all just an act.

'Cause even when I meet you, yeah I knew I couldn't have you,  
I knew that I would try, and mess it up, what can I do?  
And even when you're gone and all my friends all say I'm crazy,  
Say it ain't right, I want you to have my baby.

[Chorus]

Let you go, go, go, go.
