This Is How It Goes Down

Pink

I hear my name
I hear the trash you're talking
In your sleep
The secrets that you're keeping
A chick, this smart
Did you really think that you could keep her in the dark?
Does she purr?
Does she make it hard?
Hard to speak
Does she dress the part?
I'm sure she'll take some getting used to
Darling, she won't ever be me
I felt the bite
Take a spit
Suck the poison out of me
I'll make you beg
Make you come
To your senses
If you keep up the shit
Take the hit
Dig the grave
This is how it goes down
This is how it goes now
Gonna run
Gonna scream
Gonna crawl round on your knees
When you realize that no one's gonna measure up to me
It doesn't matter cause I'm over it now
This is how it goes down
This is how it goes now
I'm gonna rage
Stay out really late
I'm gonna hang with all my friends you hate
I may try that threesome
Better late than never and
Better without you
This is your future as I see it
You will be homeless, old, and broken
She will have left you when she finds out who you are

You're nothing but an extra, and baby I'm the star
I felt the bite
Take a spit
Suck the poison out of me
I'll make you beg
Make you come
To your senses

If you keep up the shit
Take the hit
Dig the grave
This is how it goes down
This is how it goes now
Gonna run
Gonna scream
Gonna crawl round on your knees
When you realize that no one's gonna measure up to me
Doesn't matter cause I'm over it now
This is how it goes down
This is how it goes now
I suppose this is how the story goes, but
Ever since that door closed, I've been going (down, down, down, down)
The drain and the pain got me nauseous (down, down, down)
I should have been more cautious or clever
Whatever, you'll never find a dude with a better head game, and
You can take that both ways
You laughin? like I'm playin? wit your fingers up like oh ? (down, down, down, down)
Yes, you wouldn't have a threesome without me I pull a orgy (down, down, down)
And text you something incriminating pictures from my old days (old days)
I felt the bite
Take a spit
Suck the poison out of me
I'll make you beg
Make you come
To your senses
If you keep up the shit
Take the hit
Dig the grave
This is how it goes down
This is how it goes now
Gonna run
Gonna scream
Gonna crawl round on your knees
When you realize that no one's gonna measure up to me
Doesn't matter cause I'm over it now

This is how it goes down
This is how it goes now
Somebody done lied to you
Cause you're not such a big shot dude
Might wanna rethink it through
Coulda asked me, I woulda told you the truth
Somebody done lied you
Cause you're not such a big shot dude
Might wanna rethink it through
Shoulda asked me, I woulda told you the truth
