Get A Little Closer

Pretty Ricky

Lick it from the front, hit you from the back
Freak you in my whip, baby, just relax
Lick it from the front, hit you from the back
Freak you in my whip, baby, just relax
Can we get a little closer, baby?
I wanna get to know you, lady
Me, it's like night and day
(Like night and day)
'Cuz you seem so far away, shawty
Can we get a little closer, baby?
I wanna get to know you, lady
Me, it's like night and day
(Like night and day)
'Cuz you seem so far away, shawty
Count my paper, stack my weight up
She's a gold digger but I ain't gon' hate her
I'd still date her, cut her like a brand new razor
Fine like some old wine in the 'fridgerator
Too much flavor, sweeter than nowalaters
Hook her then bait her, receive her like the raiders
I'm that player, I'm that balla, regulate her
Crushin' haters in the baby blue gators
Now foxy thing, come closer, I wanna gets to know ya
Got some tricks up my sleeve, I really wanna show ya'
Caressin' and holdin' ya, kissin' ya toes and uh
Openin' doe's fa ya and walkin' in the cold for ya
What else I gotta do just to make your body mine?
'Cuz goddamn, ya fine and I wanna spend time
I ain't lyin', I wanna whisper in ya ear like a singer
I'm a pro player, call me Wayne ha Zane
Can we get a little closer, baby?
I wanna get to know you, lady
Me, it's like night and day
(Like night and day)
'Cuz you seem so far away, shawty
Can we get a little closer, baby?
I wanna get to know you, lady
Me, it's like night and day
(Like night and day)

'Cuz you seem so far away, shawty
Lick it from the front, hit you from the back
Freak you in my whip, baby, just relax
Lick it from the front, hit you from the back
Freak you in my whip, baby, just relax
I really wanna lay you down
When I touch down in your town
Baby, let me break you off
(Oh, baby)
I really wanna lay you down
When I touch down in your town
Baby, let me break you off
Now, only I scratch nipple but I don't bite
Got me paralyzed off your sexy hips and your thighs
And like, ooh, gasolina wanna jump on your trampolina
Got them bombinas in the winner
Mami come here, now I wanna spend the night
The crowd go wild like Holyfield won the fight
You're my dynasty, how you roc the fella world
Plus, you're from the projects, you remind me of a poor little rich girl
Now baby girl, come closer
(Closer)
I got some things I wanna show you
(Wanna show you)
Now baby girl, come closer
(Closer)
I got some things I wanna show you
(Wanna show you)
[Incomprehensible]Can we get a little closer, baby?
I wanna get to know you, lady
Me, it's like night and day
(Like night and day)
'Cuz you seem so far away, shawty
Can we get a little closer, baby?
I wanna get to know you, lady
Me, it's like night and day
(Like night and day)
'Cuz you seem so far away, shawty
Lick it from the front, hit you from the back
Freak you in my whip, baby, just relax
Lick it from the front, hit you from the back
Freak you in my whip, baby, just relax
I really wanna lay you down
When I touch down in your town
Baby, let me break you off

(Oh, baby)
I really wanna lay you down
When I touch down in your town
Baby, let me break you off
