

# My Generation

## Total Chaos

Our generation is raving mad  
Your generation is fucking sad  
Our generation is for the working class  
Your generation is kicking ass  
We're going to fight to free ourselves  
From a system that can't relate  
From a system that will not change  
From a system that's fucking lame  
From a system that's gone insane  
Our generation is fucking pissed  
Your generation won't be missed  
Our generation is going to kick your ass  
Your generation is part of the past
