Village Gorilla Head

Tommy Stinson

I can see you're bleeding from your laugh
You tried to stop it with an axe
You fill the holes with Styrofoam
You drive your hammer with a nailPlastic made of sheets
Your claustrophobic dreams
You're dying to make it
Feel so real
You're dying to make it
Feel so realArm and arm you fall into your day
There's always something missing from your lips
You break the silence with a scream
He's never even seen you move your mouthWatched you grind your teeth
Feeling so complete
You're dying to make it
Feel so real
You're dying to make it
Feel so realYou're dying to make it
Feel so real
You're dying to make it
Feel so realYou laugh, you laugh
You're dying to make it
Feel so real
You're dying to make it
Feel so realYou're dying to make it
Feel so real
You're dying to make it
Feel so real
