## **Burn This City**

## **Cartel**

Stay up all night and sleep all day

We were smart kids with too much to say

And so, so sure that they were missing out

They're the ones who are missing outWe were elemental

Talked down to bear essentials

Who knew we'd get so far?'Cause our days were numbered by nights

On too many rooftops
They said, we'd burn so bright

They said, we'd burn so bright
We burn this city and goPlay it again
(Our games of love and lust)

There's no such thing

(No there's never too much) And we were so, so sure

Oh we never had a doubt

Now were counting days to getting outAnd we were elemental

Took down to bear essentials

Who knew we'd get so far?'Cause our days were numbered by nights

On too many rooftops

They said we're wasting our lives

But oh at least we know

That if we die, we lived with passion

They said, we'd burn so bright

We burn this city and goPack our bags and let's get away

They're catching on to us

Pack our bags and let's get away

They're catching on to usPack our bags and let's get away

They're catching on to us

Pack our bags and let's get away

They're catching on to us'Cause our days were numbered by nights

On too many rooftops

They said we're wasting our lives

But oh at least we know

That if we die, we lived with passion

They said we'd burn so bright

We burn this city and goWe burn this city and go

Oh we burn this city and go

Yeah we burn this city and goOur days were numbered by nights

On too many rooftops

They said we're wasting our lives

But oh at least we know

That if we die, we lived with passion They said we'd burn so bright Oh oh oh
