Freak Out

The Muffs

About myself-what do you wanna know
Am I wrong beneath this stupid little songI freak out anytime that you freak out every time I have attitude
Anytime and I think I wanna dieI don't care, what you think about me
Go to hell I'm wanting you to know I tell the truthBut something inside me freaks out anytime that I think of you
anytime and I think I'm gonna dieI don't cry every time that I see you.
I'll whine and I'll write another tune[solo]
alrightgo to hell
I'm wanting you to know I tell the truth but something inside me
freaks out every time that I think of you
anytime and I think I wanna die
oh I freak out anytime that you freak out every time
I have attitude anytime and I think I wanna die
