

# Freak Out

## The Muffs

About myself-what do you wanna know  
Am I wrong beneath this stupid little song I freak out anytime that you freak out every time I have attitude  
Anytime and I think I wanna die I don't care, what you think about me  
Go to hell I'm wanting you to know I tell the truth But something inside me freaks out anytime that I think of you  
anytime and I think I'm gonna die I don't cry every time that I see you.  
I'll whine and I'll write another tune[solo]  
alright go to hell  
I'm wanting you to know I tell the truth but something inside me  
freaks out every time that I think of you  
anytime and I think I wanna die  
oh I freak out anytime that you freak out every time  
I have attitude anytime and I think I wanna die
