

# Sky Starts Falling

## Doves

Oh who am I supposed to be?  
I can't be sure that the next one will see me And if the sky starts falling on the street outside  
The only thing that satisfies  
If the sky starts falling on the heads outside  
The only thing that keeps me alive If you see her again, be sure to say hello  
Be sure to send my love  
Did she seem like before, could you seem above it all?  
Be sure to send my love Wake up, waking up to see  
That it's a sign, what will be will be And if the sky starts falling on the street outside  
The only thing that satisfies  
If the sky starts falling on the heads outside  
The only thing that keeps me alive, alive I swear I heard her call, call my name  
I swear I heard her call, can I move on? If you see her again, be sure to say hello  
Be sure to send my love  
Did she seem like before, can't you seem above it all?  
Be sure to send my love I swear I heard her call, call my name  
I swear I heard her call, can I move on? Did she call herself a friend?  
Don't call on me again, don't call on me again  
Did she seem like before, did she seem above it all?  
Be sure to send my love
