

U.S.Anus

Frenzal Rhomb

Well we live in a nation where Nike shoes and
Pepsi cans are breeding like cancerous cells
It's not hard to believe it and it's hard to ignore it when
our governments get on so well, well well....

U.S.Anus

If you don't want to face it then you'll have to
embrace it like the virus of that big golden sign.
It's the great open market if we're good we'll get
rewarded with some lunch money and a chance
to buy, we've got to buy or say goodbye.

U.S.Anus

When we go down, down, down, to that distinctive
sound of the universe when ready to blow
we can be safe in the knowledge of that flag saluting
procection 'cause we'll almost be the first to go, the first to go

U.S.Anus
