Words Stuck to Heart

Outlandish

Advisory - the following lyrics contain explicit language:

Time after time we dream, dreaming of how it all could be
But none can say what lies ahead
When after the dawn the sun will set
Only the truth remains in hereMmm, promises we make in vain
And words we give for a while to break
A flower fades away like everything else
Oh, everything fades awayWords are stuck to the heart, my friend
Words are stuck to the heart, my friend
They bring us together til we part again
They bring us together til we part againWhen theres nothing left to share
And all the words will disappear
Only the truth remains in here
Words are stuck to the heart, my friendMy friend, my friend
Cuando solo el silencio canta
My friend, my friend, my friend
Y solo tus sueos bastanBlood aint blood for just the veins
If tears dont bleed, the heart has failed
Need some space to ease my mind
I give it all up for just a smile, only the truth remains in hereMmm, promises we make in vain
And words we give for a while to break
A flower fades away like everything else
Oh, everything fades awayWords are stuck to the heart, my friend
Words are stuck to the heart, my friend
They bring us together til we part again
They bring us together til we part againWhen theres nothing left to share
And all the words will disappear
Only the truth remains in here
Words are stuck to the heart, my friendFrom street thugs to ghetto sufis
Holding their breaths
We clutch to riches and fame
Like its all thats leftRighteousness is kept
Through minds awakened

Today we break our word
Like the bread we breakingAs que tus palabras son mi cuna, mi promesa es tu luna
Y cuando tu verso es verde claro que busca en el monte amparo
Mi verso es un pual que da agua de coral
Llevo promesas tatuadas en el pechoWords are stuck to the heart, my friend
Words are stuck to the heart, my friend
They bring us together til we part again
They bring us together til we part againWhen theres nothing left to share
And all the words will disappear
Only the truth remains in here
Words are stuck to the heart, my friend
