

It All Begins And Ends With Love

Jackson 5

The joy you bring to me each day
Makes loneliness seem far away
It all begins and ends with love Each time you're near I feel so good
I'm touching stars I never could
It all begins and ends with love An old man smiles at children's songs
You and me singing right along
Reaching out tuning in, yeah
Listen to the world begin, listen to the world begin Of all the things I've ever done
Just knowing you is number one
It all begins and ends with love Ooh, baby, look at me
Me and you, together we can prove it's true
It all begins and ends with love
It all begins and ends It all begins and ends with love
It all begins and ends with loving you
