

Tel Aviv'n

Matisyahu

I'm feelin' easy
The ocean breeze be
Carrying me, I'm Tel Aviv'n
And now I'm seeing
And I'm believing
Because these streets
Got melody in 'em

I'm on a plane over
The Mediterranean
And this terrain of the plains
That's beneath my feet
I'm on a Jeep at twilight,
With my night vision on
To find the song of my people
'Til we hit the dawn

Moving and shaking
And taking it up
Swimming in the ocean
And I won't give up

Moving and shaking
And taking it up
Swimming in the ocean
And I won't give up

Moving and shaking
And taking it up
Swimming in the ocean
And I won't give up

Independence Day the sunset
Dj plays one day

Fly high, higher than all the walls
Fly high, like a desert eagle

Now it's mid day
I'm on my way

On a camel with my shades
Head wrapped to the max
Burning tracks, all day
Hill tops, won't stop
'Til Moshiach's on his way
And I don't give damn about
What the world say

I'm on a hillside
Feeling so alive
Below me the dead sea and F15's
Bullet shells be
Just like graffiti
Kojak in a flag with an M16

Moving and shaking
And taking it up
Swimming in the ocean
And I won't give up

Moving and shaking
And taking it up
Swimming in the ocean
And I won't give up

Moving and shaking
And taking it up
Swimming in the ocean
And I won't give up

Independence Day the sunset
Dj plays one day

Fly high, higher than all the walls
Fly high, like a desert eagle

You could teach your children hatred
Teach them how to fight
I'm a teach my children how to love
With all of their might
With all of your soul
All of your heart
All of your might
Might,might,might...

Sh'ma Yisrael

Adonai Eloheinu

Adonai Echad

Fly high, higher than all the walls

Fly high, like a desert eagle

Fly high, higher than all the walls

Fly high, like a desert eagle
