E.V.A. (Vessels)

Public Service Broadcasting

And now, a new breakthrough in space conquests
For the first time, the spaceman has to leave the ship and step out into open space
The first one to do this was Alexey Leonov
Everything is ready, let's goEverything is strange and unusual in this new world
There's no support: no top, no bottom
Everything is weightless
Everything is weightless
Orientation is locked
The vacuum is dangerous
I'm on the edge of the opening
Of the airlock chamber
I feel excellent
I see clouds and the sea
I am beginning to move awayA man in space
He's walking in spaceHe's walking in space
There's no support,
No top, no bottom
Everything is weightless
He's walking in space
He's walking in space10 minutes in open space
10 minutes that sthe world
