

Fear Is A Place To Live

Korn

I feel you all around me
Your voice, it surrounds me
You keep telling me what I want to hear
You're beautiful, so talented, I need you, we got a thing
You ever need something I'll be right there
Fear is a place to live
Rip off the mask from your head
Show me the real face that you hide
I see you from a mile away
Keep staring, acting like you gotta say
You're beautiful, so talented, I need you, we got a thing
You ever need something I'll be right here
Fear is a place to live
Rip off the mask from your head
Show me the real face that you hide
Fake ass people surround me
They're always nice to begin
Digging their claws

Fake ass people surround me
Digging their claws right in me
They're always nice to begin but
I always get fucked in the end
Fake ass people surround me
Digging their claws right in me
They're always nice to begin but
I always get fucked in the end
I always get fucked in the end
I always get fucked in the end
I always get fucked in the end
I always get fucked in the end
Fear is a place to live
Rip off the mask from your head
Show me the real face that you hide
FAKE ASS, FAKE ASS
Fear is a place to live
Rip off the mask from your head
Show me the real face that you hide
