

How I Feel

Roy Woods

[Verse 1]

She wanna go far so I told a lil' mama go long (hut!)
You wonder why I'm here, I won't be back for long
I got to make moves, no sleep all week in my room

Got another song to write right now

That songs about you

You said he does it all wrong

I want to get you on one

Hit you in the soft spot

Make you sing "ah, ah, ah"

Like right before you walk in the club

I'mma set your body up, up, up

You set on me, I'm set on my team[Chorus]

It's OVO right now

It's UTU right now

They can sleep right now

I'm stepping up right now

I'm been up for four nights

That's only for now

I'm gon' do me, you can leave me alone

I don't care, that's how I feel right now, right now, right now

I'm living better in the city right now, right now, right now

So we gonna get hotter right now, right now, right now

I'm living better in the city right now, right now, right now[Verse 2]

I want to go far but she told me a young nigga get lost

I'm focused on you, girl

Got your friends parked in the lot

Oh she forgot something, her eyes [?]

Undress me, touch me how you want

But I'm here, feel my presence when I'm here

Keep it real around me when I'm here

Don't get lost 'round here

This new life is like a breath of fresh air

I worked my ass off so it's fair

She no fear around me

You know I can see[Chorus]

It's OVO right now

It's UTU right now

They can sleep right now

I'm stepping up right now
I'm been up for four nights
That's only for now
I'm gon' do me, y'can leave me alone
I don't care, that's how I feel right now, right now, right now
I'm living better in the city right now, right now, right now
So we gonna get hotter right now, right now, right now
I'm living better in the city right now, right now, right now
