Searching

Kitty Wells

Searching, I've spent a lifetime, darling
Searching, looking for someone like you
Dreaming, in all my dreams I dream
That someday I'd find someone like youOther love have come my way but they were not for me
Tell me that you're here to stay, don't ever set me free
'Cause I've been searching, I've spent a lifetime, darling
Searching, looking for someone just like youOther love have come my way but they were not for me
Tell me that you're here to stay, don't ever set me free
'Cause I've been searching, I've spent a lifetime, darling
Searching, looking for someone just like you
