

# Searching

Kitty Wells

Searching, I've spent a lifetime, darling  
Searching, looking for someone like you  
Dreaming, in all my dreams I dream  
That someday I'd find someone like you  
Other love have come my way but they were not for me  
Tell me that you're here to stay, don't ever set me free  
'Cause I've been searching, I've spent a lifetime, darling  
Searching, looking for someone just like you  
Other love have come my way but they were not for me  
Tell me that you're here to stay, don't ever set me free  
'Cause I've been searching, I've spent a lifetime, darling  
Searching, looking for someone just like you
