Dreaming

Cream

Dreaming about my love You bring me joy and hours of happiness More or less I dream my life awayWaiting for you to come Changing my life for you to emptiness Meaningless Minutes just drift byI don't care if I get nowhere I can just dream and you'll be there What else is there to do?Dreaming about my life Where are you now And when will you come to me? I dream my life awayI don't care if I get nowhere I can just dream and you'll be there What else is there to do?Dreaming about my love You bring me joy and hours of happiness More or less I dream my life awayDreaming Dreaming
