Love It Or Leave It

Heidi Montag

Im gonna blow right past ya
Like I dont even know ya
Cuz your bringing me down down down down
Take a picture it might last longer
I wont be hanging around round round
Walk threw the clubs party thats what you wanted
I light up night night night
I get this thing started if your laying broken hearted
I'm doing it right right right
I dont care thats how I (move)
Love it or leave it thats how I (move)
And dont you mess with my (love it or leave it)
I said it said it said it said it
Love it or leave it
If you dont get it you dont get it
Love it or leave it
Independent women with an eye for the lime life
Seeking short term relationship highlights
Likes to have fun and kiss under the moonlight
But not your average house wife
I'm an important lady
When I show up they pay me
Pass the check to the right
I dont need you to save me I know that some people hate me
Just living my life
I dont care thats how I (move)
Love it or leave it thats how I (move)
And dont you mess with my (love it or leave it)
I said it said it said it said it
Love it or leave it

If you dont get it you dont get it
Love it or leave it
Sometimes I max out your credit card
Sometimes a lapdance might be in order
I said it said it said it said it
Love it or leave it
If you dont get it you dont get it
Love it or leave it

You know that I'm the one that activates ya
I'll give up something that just captivates ya
I'm unpredictable and very uncontrollable
Baby if you dont understand it, it might be time to roll
I dont care thats how I (move)
Love it or leave it thats how I (move)
And dont you mess with my (love it or leave it)
I said it said it said it said it
Love it or leave it
If you dont get it you dont get it
Love it or leave it
I said it said it said it said it
Love it or leave it
If you dont get it you dont get it
Love it or leave it
I said it said it said it said it
Love it or leave it
If you dont get it you dont get it
Love it or leave it
I said it said it said it said it
Love it or leave it
If you dont get it you dont get it
Love it or leave it
