

# Later (Solardo Remix Radio Edit)

## Example

Head spins aroundLost in the crowd  
It's early morning  
Your eyes are loud  
Look like they callin'  
Come calm me down  
Feel like I'm floatin'  
Head spins around(Head spins around)  
(Head spins around)  
(Head spins around)You been lookin' at me  
Like you not on your best behaviour  
(Lookin' at me)  
Hope you're thinkin' about  
What you're gonna do to me later  
(You, me, later)  
I've had a taste of your world  
And I'm probably likin' the flavour  
(Likin' the flavour)  
Hope you're thinkin' about  
What you're gonna do to me later  
(You, me, later)(Head spins around)  
(Head spins around)  
(Head spins around)That thing you do  
Where did you learn it?  
All sorts of moves  
My palms are burning  
Let's find a room  
And quit the flirtin'  
Head spins around  
Head spins around  
Head spins around  
Lost in the crowd  
It's early morning  
Your eyes are loud  
Look like they callin'  
Come calm me down  
Feel like I'm floatin'  
Head spins around  
Head spins around  
Head spins aroundYou been lookin' at me

Like you not on your best behaviour  
(Lookin' at me)  
Hope you're thinkin' about  
What you're gonna do to me later  
(You, me, later)  
I've had a taste of your world  
And I'm probably likin' the flavour  
(Likin' the flavour)  
Hope you're thinkin' about  
What you're gonna do to me later  
(You, me, later)(You, me, later)  
(You, me, later)
