Get To You

Shiloh

Six o'clock, there goes my alarm now
Monday, it's a sunny day out
I would stay in bed, but the truth is
You're the one that makes me wanna wake upLoggin' in, checkin' on my e-mail
Just wanna talk and I'm hopin' that you'll be there
I've got so much to tell you
'Cause you're the only one that I can turn toYou know it drives me crazy, when you're so far away
I'd walk a million miles, just to get to you, next to you, little bit closer
I wanna get to you, I'll get a little loud if I have toI said I really wanna get to you, and there ain't nothin' that I wouldn't do
Don't care what they say, doesn't matter anyway
Can't hold me back, 'cause I won't be without youYou know I really wanna get to you, and I'll do anything that I have to do
Can't breathe, can't sleep, baby can't you see
I won't stop 'till I know you're here beside meSittin' here, lookin' at a photograph
I'm missin' out on the moments that we should have had
Can't figure out what I'm gonna do
Try to forget so I don't have to miss youCan't sleep, you're all I ever think about
I've got a plan and I'm hopin' it'll work out
I'm gonna get to you come rain, come shine, gonna do what I have to
I wanna get to you, I'll get a little loud if I have toI said I really wanna get to you, and there ain't nothin' that I wouldn't do
Don't care what they say, doesn't matter anyway
Can't hold me back, 'cause I won't be without youYou know I really wanna get to you, and I'll do anything that I have to do
Can't breathe, can't sleep, baby can't you see
I won't stop 'till I know you're here beside meI want to get to you, there's nothing I won't do
I want to get to you and there's nothing that I won't doBa-da... Wo-oh...Yah I really wanna get to you
