

Playing in the Shadows

Example

I got someone waiting at home for me, staring out the door
And I'll wanna stay in the zone till 3, all those calls ignored
Tomorrow she'll probably disown me, happy no more,
Keep falling into shadows, I'm playing in the shadows all night long,
So good to play with bad girls I'm still young,
They keep on saying hello, I know what they want,
You'll find me in the shadows She's always ringing my phone you see, laying down the law,
Keep trying to speak to her honestly, so she knows the score,
Maybe one day I'll be lonely, knocking down the door,
Keep falling into shadows, I'm playing in the shadows all night long,
So good to play with bad girls I'm still young,
They keep on saying hello, I know what they want,
You'll find me in the shadows
You'll find me in the shadows I got someone waiting at home for me, staring out the door
And I'll wanna stay in the zone till 3, all those calls ignored,
Tomorrow she'll probably disown me, happy no more,
Keep falling into shadows Playing in the shadows
Playing in the shadows
Playing in the shadows
Playing in the shadows, people call it shallow
Tell me something I don't know Tell me something I don't know
Tell me something I don't know
Playing in the shadows, people call it shallow
Tell me something I don't know Maybe one day I'll be lonely, knocking down the door,
Keep falling into shadows, I'm playing in the shadows all night long,
So good to play with bad girls I'm still young,
They keep on saying hello, I know what they want,
You'll find me in the shadows You'll find me, find me, find me
You'll find me in the shadows
You'll find me, find me, find me
You'll find me in the shadows You'll find me in the shadows
