

# Psychopath

## Oxymoron

There is a side that I conceal  
that is beyond your imagination  
a wrong comment will set it free  
and I'll undergo a grave mutation  
You can find out with whom you deal  
till it's too late to restore the seal  
A potential threat for everyone  
who walking with me and beyond  
There ain't no simple guarantee I won't break out to kill  
I breed in a psychiatry, I can control my will [Chorus:]  
Don't mess me around  
I'm nowhere-bound  
cos I'm a psycho  
I'm a PSYCHOPATH I learned to hide my mental state  
yet I'm still on a mad crusade  
You know this urge from deep inside  
is nagging me all day and night  
Underestimate the extent it got  
and you'll awake in sudden shock  
when you come to know my soul is dark  
and I'm a psycho, a maniac  
There ain't no simple guarantee I won't break out to kill  
I suffer from misanthropy, I can control my will
