

# Violence

## Youth Brigade

They call us fascist and then they pray  
To the God that made the world their way  
In whose name they kill and teach  
The sermons and the laws they preach  
Violence, just for kicks  
Violence, does it make any sense  
Violence, can you stop it  
Violence, do you want to  
Philosophy borne of the mind  
Try to explain the problems of our lives  
It can't explain away  
That violence is here to stay  
Say it's just our nature  
We have to fight  
Doesn't matter we've been taught  
that Might Makes Right
