

Broken Mirror

Travis

Each time you go away
Part of you turns to gray
The jingle of the chains
Singled, rearrange Broken mirror steal my reflection
Tell me what you see
A hundred shattered eyes in the
Looking glass staring back at me Inside, inside
Inside tolls the bell
Outside all is well Broken mirror steal my reflection
Tell me what you see
A hundred shattered eyes in the
Looking glass staring back at me I never wanna be alone
I never ever wanna go home
This I know for sure
