

Fearless (from Girl Vs. Monster)

Olivia Holt

I got the upper hand now
And you're losing ground
You never had to fight back
Never lost the round You see the gloves are coming off
Tell me when you've had enough Ready for a showdown
And we're face to face
I think I'll rearrange it
Put you in the place
You don't get the best of me
Check it, you're afraid of me I'm stuck in your head
I'm back, back from the dead
Got you running and scared
I'm fearless
I'm calling you out
I'm taking you down
Don't you come around
I'm fearless
I'm fearless I'm fearless You used to make my heart pound
Just the thought of you
But now you're in the background
What cha gonna do?
Sound off if you hear this
We're feeling fearless
We're feeling fearless I'm stuck in your head
I'm back, back from the dead
Got you running and scared
I'm fearless
I'm calling you out
I'm taking you down
Don't you come around
I'm fearless I'm stuck in your head
I'm back, back from the dead
Got you running and scared
I'm fearless
I'm calling you out
I'm taking you down
Don't you come around
I'm fearless
I'm fearless
