I Don't Believe In Goodbye

Sawyer Brown

I keep rollin' it over and over
All the things I want to say
I'll never quit, give up, or forget you
My love will stand in the way'Cause I don't believe in goodbye
And I believe it takes time
To build something strong, it won't take long
For you to believe in me, just look in my eyes
I don't believe in goodbyeWhere love goes, we must follow
And let our hearts lead the way
We'll be the last of the true believers
First in love and last to stay'Cause I don't believe in goodbye
And I believe it takes time
To build something strong, it won't take long
For you to believe in me, just look in my eyes
I don't believe in goodbyeI don't believe in goodbye
And I believe it takes time
To build something strong
It won't take long for you to believe in me
Just look in my eyesI don't believe in goodbye
I don't believe in goodbye
I don't believe in goodbye
I don't believe in goodbye
