

# I Don't Believe In Goodbye

Sawyer Brown

I keep rollin' it over and over  
All the things I want to say  
I'll never quit, give up, or forget you  
My love will stand in the way'Cause I don't believe in goodbye  
And I believe it takes time  
To build something strong, it won't take long  
For you to believe in me, just look in my eyes  
I don't believe in goodbyeWhere love goes, we must follow  
And let our hearts lead the way  
We'll be the last of the true believers  
First in love and last to stay'Cause I don't believe in goodbye  
And I believe it takes time  
To build something strong, it won't take long  
For you to believe in me, just look in my eyes  
I don't believe in goodbyeI don't believe in goodbye  
And I believe it takes time  
To build something strong  
It won't take long for you to believe in me  
Just look in my eyesI don't believe in goodbye  
I don't believe in goodbye  
I don't believe in goodbye  
I don't believe in goodbye
