Android

Putokazi

Changing sides, follow lines
Frequencies decide
Who designed me this way
And who's around to play?Adjust my gain
Replace my fear with pain
I'm on a wave
Select any game to saveWill we fight it? Will we play?
Will we start all over again?
Well we better do something
I'm losing this game again
The same old gameTime to change, I'm corrupted
Change my disk, erase me, reboot, delete
I've had enough, my trash bin is full
Now empty my head, please give me the chanceNew start, restart
Empty pages
Make some changes
Install everything newI'm sick of you, hunting my thoughts
I don't wanna be your android anymoreNew start, restart
Install everything new
Erase me, reboot, deleteWill we fight it? Will we play?
Will we start all over again?
Well we better do something
I'm losing this game again
The same old gameAdjust my gain
Replace my fear with pain
I'm on a wave
Select any game to save
