Back In the Day

Nick Styles

Up and under, at the man made thunder
Thrills got slender from one thousand times tried,Got on the road for a two week bender through three states
And nine states of mindOn a big weekend needed a long term lender said
I was getting half sober but the other half liedWent to a funeral but man I had no memories
My mother got mad at me when I wouldnt cry
You know it wasChorus
Back in the day back in the dayWhen everything that had to be said
Youd said youd saidBack in the day, back in the dayBack in the day before all the bubbling I had
No troubles had no trouble noThree times the potion makes you feel like flying
And something in her eyes will make you tryLate night swimming I dove on right in swam
Up beside her noticed the finChorus
All I heard them say as I asked to be saved
She said baby maybe it could have of been if it was back in the day
I said I gotta get home do you how far are we from
She said leave now it may take all day long
All day long
Back in the day
Back in the day
When everything that had to be said
Youd said youd saidBack in the day
Back a few days a few days
