

# Round Here

George Michael

My daddy got here on the gravy train  
I guess my mama had a real bad start to the game  
They went walkin' and she took his name, round here  
There was dancin' in the afternoons, those days  
Waitin' tables, chasin' girls with the money he made  
It was 1957 and love felt the same, love felt the same  
Frightened little girl, she makes a break  
Into the arms of something better, round here  
I hear my mama call in Kingsbury Park  
Just me and David and a football that glowed in the dark  
Waitin' patiently to make my mark, round here  
And I remember my, my first day at school  
And I remember trouble and thinkin' I was so cool  
I remember it all, like yesterday, don't you  
Every time I try to leave this place  
Something inside says, "You can do better", round here  
So come with me, let me show you where I've lived  
I want to put my hands in this earth again  
Music fell like rain to the streets  
The Specials and The Jam, to the beat  
Even though I think I've seen everythin'  
There is to see of this world  
I gotta be thankful that this crowded space  
Is the place of my birth  
All that I wanted, was to be someone  
Two little Hitlers in an old church hall  
Some cheesy covers and those neighbours  
That banged on the walls  
Andy says it's time to show them all, round here  
Please sir, we two have other plans  
  
Please sir you would not understand  
What's going on, is magical, can't you see  
That some of us do more than dream  
Every time I try to leave this place  
Something inside  
Says, "Keep on keepin', on and on", around here  
So come with me, let me show you where I've lived  
I wanna put my hands in this earth again

Music fell like rain to the streets  
The Specials and The Jam, ABC  
Even though I think I've seen everythin'  
There is to see of this world  
I gotta be thankful that this crowded space  
Is the place of my birth, my birth  
In this town, yes, I guess I got to be someone  
To be somebody, in the beautiful city  
This place I call home  
(This place I call my home)  
These streets of London  
(This place I call my home)  
It's everythin' I know  
(Everythin' and everybody)  
On the streets of London  
(I wanna thank you, thank you)  
This place I call my home  
(I wanna thank you, thank you)  
Daddy got here on the gravy train  
Daddy got here on the gravy train  
Daddy got here on the gravy train
