Hell's Last Survivor

Halford

I cry from the madness
Then reach for a hand
Stay on the lifeline
Till I understandI watched my worlds collide
And drive me underground
I've been to hell and back
And beat the devil downI'm all I have, I'm all I need
The last survivor
I fought and won, and now I'm free
The last survivorI pray for deliverance
Grown from the guilt
Live from the bottom
Destroy what I've builtI watched my worlds collide
And drive me underground
I've been to hell and back
And beat the devil downI'm all I have, I'm all I need
The last survivor
I fought and won, and now I'm free
The last survivorI will survive
I will survive
I will surviveI'm all I have, I'm all I need
The last survivor
I fought and won, and now I'm free
The last survivorI'm all I have, I'm all I need
The last survivor
I fought and won, and now I'm free
The last survivor yeah
