Hours & Days

Norton

HOURS & DAYS

Youâ€™re breaking all this all over
Cuz I know you had a bad day
We can still hold on to each other
And I know you want it that way

Cuz everyway leads the same
We canâ€™t find it any longer
Small steps you will take
A few small steps now
Are coming your way

So got to go
Leave all the good and breathe
Friends and sights
Streets with life
Where others wonâ€™t try

Come with me now
Bring all the youth and live
Dancing lights
Streets with life
Where others wonâ€™t try

Keep it coming
Keep it coming
And learn your ways
Keep it coming
Lost bet to a hard fall
Keep it coming
Keep it coming
For hours and days
Keep it coming
Lost bet to a hard fall

Youâ€™re breaking all this all over

Cuz I know you had a bad day
We can still hold on to each other
And I know you want it that way

Cuz everyway leads the same
We canâ€™t find it any longer
We can still hold on to each other
And I know you want it that way

Coming your way

Set fire to your heart
Bring up our souls
In places we have discovered
All of those who say

Keep it coming
Keep it coming
And learn your ways
Keep it coming
Lost bet to a hard fall
Keep it coming
Keep it coming
For hours and days
Keep it coming

We are taking a dip in the sea
We are taking on and on

Set fire to your heart
Bring up our souls
In places we have discovered
All of those who say
