# Call It a Night

## Dynamite Hack

don't give me no shit
that's why i'm gone
this isn't how it's supposed to be
with you crawling in my skin
i just can't care about anything
how'd it happen? who's to blame?
i want you less and less each day
so stop following me
i've got nothing left to sayi just wanna be alone
sit here getting stonedand i don't wanna fight
but you never let it go
it's getting on my nerves
so let's call it a nighti'm a jerk, i'm a dog
that's what you'll say about me
when you know I'm not around
next you can't live without me
you hang around with all my friends
my life your forcing your way in
