Things Just Getting Good

The Promise Ring

When what I came to say, is said
And the sun sets on my summer career
How September came for Sinatra
Now it's winter then it is a new yearThe big bright lights take Manhattan
And I take to Berlin
Tomorrow we all get started
But for tonight I am turning inWhen what I came to do is done
And we all feel a holiday cheer
I hear my swan song singing
It is winter then it is a new yearSo I follow weathers together
And my best brother
With things just getting good
