

# Things Just Getting Good

## The Promise Ring

When what I came to say, is said  
And the sun sets on my summer career  
How September came for Sinatra  
Now it's winter then it is a new yearThe big bright lights take Manhattan  
And I take to Berlin  
Tomorrow we all get started  
But for tonight I am turning inWhen what I came to do is done  
And we all feel a holiday cheer  
I hear my swan song singing  
It is winter then it is a new yearSo I follow weathers together  
And my best brother  
With things just getting good
