My Life

Grace Griffith

My life
It don't count for nothing
When I look at this world I feel so small
My life
Is only a season
A passing September no one will recall

But I gave joy to my mother
And I made my lovers smile
I can give comfort to my friends when they're hurting
I can make it seem better for a while

My life
Is half the way travelled
And still I have not found my way out of this night
My life
It's tangled in wishes
And so many things that just never turned out right

But I gave joy to my mother
And I made my lovers smile
I can give comfort to my friends when they're hurting
I can make it seem better....
I can make it seem better for a while
