

# American Gods

## LLuther

I'm so frustrated  
I am your hatred  
Yea, I'm the reason you exist... to kill  
You suffocate when I'm safe  
Try to make me scared  
Take me on, I will beat you  
Save me and all I know  
Betray me and all I know  
Solid truth, I don't need it  
American God  
Clear my slate yea  
Now I'm ready  
You're the reason I exist... to kill  
You suffocate when I'm safe  
Try to make me scared  
Take it on, I will show you  
Save me and all I know  
Betray me and all I know  
Sour truth, I don't need it  
American God
