

Kiss You in the Morning

Michael Ray

Them jeans are faded
In all the right places
You got me hanging on tight to your curves like little E Races
Girl your funky little back beat's got me
Feel like I'm tipsy and I ain't even had a drink I wanna kiss you in the parking lot
Under the moonlight
Kiss you running red lights
Baby set the mood right, just like
Everything you're doing to me right now is making me crazy
I wanna kiss you on the dance floor
Kiss you like a lets go, come on
Baby let me hear you say oh, oh
I wanna kiss you with the neon light in your eyes glowing Then I wanna kiss you in the morning
(Yeah)
Yeah I wanna kiss you in the morning Oh you little outlaw
Stealing my heart and all
When you drop it down low, touch your toes
Girl you know you just showin' off
That little tattoo on your tan line, oh my
Pretty little butterfly
What else have you got to hide I wanna kiss you in the parking lot
Under the moonlight
Kiss you running red lights
Baby set the mood right, just like
Everything you're doing to me right now is making me crazy
I wanna kiss you on the dance floor
Kiss you like a let's go, come on
Baby let me hear you say oh, oh
I wanna kiss you with the neon light in your eyes glowing Then I wanna kiss you in the morning
Yeah I wanna kiss you in the morning I wanna kiss you in the parking lot
Under the moonlight
Kiss you running red lights
Baby set the mood right, just like
Everything you're doing to me right now is making me crazy
I wanna kiss you on the dance floor
Kiss you like a let's go, come on
Baby let me hear you say oh, oh
I wanna kiss you with the neon light in your eyes glowing Then I wanna kiss you in the morning

I wanna kiss you in the morning, morning Yeah I wanna kiss you in the morning
