

The Call (feat. Mike Portnoy)

Neal Morse

Leave it all behind you
Time to let it go
Free the chains that bind you
Let your heart go and follow the call
With every beating of my heart
Every moment of my soul
Like the earth surrounds the earth
I'm engulfed in who you are
But at times we find ourselves
In a place where it all comes down
And it seems there is no hope
And forever we're falling
Far and away
There we will be
It's all for the making
If we only turn the key
Close as your breath
Filling it all
So reach across the moment
And come following the call
Just as life can break your heart
And I know how you feel today
If you dare the dream you'll find
When all you've got you just give away
Far and away
There we will be
It's all for the making
If we only turn the key
Close as your breath
Filling it all
So reach across the moment
And come following the call
Following the call
Leave it now
You know it's time
The grief you need you're feeling
But your feelings don't define
Who you are
You're more than your mind
So reach for the connection
Leaving everything behind
Leave it all behind you
Time to let it go
Peace will surely find you

And let love shine a light on us all
Leave it all behind you
Time to let it go
Free the chains that bind you
Let your heart go and follow the call
