## Balances

Find it in you, raise your eyes  
Look beyond the place you stand  
Towards the furthest reaches  
And to the smallest of thingsThe sound you are hearing  
Is the symphony of what we are  
Revelation will not come  
With heart and mind closed and dividedNo need of sun to light the way  
Across the ages, we have reigned as we endured  
Through the storm fronts we will ever surely pass  
To stand as never ending lightThrow away the mantle  
Awake from your uncertain hesitation  
No way to describe or equate the feeling  
No end to what is at your commandA million thoughts run through you  
Concentric circles, ever greater  
But you have always known  
This is not all there is  
To your questions there'll be answersNo need of sun to light the way  
Across the ages, we have reigned as we endured  
Through the storm fronts we will ever surely pass  
To stand as never ending lightLet there be, let there always be  
Never ending light  
Let there be, let there always be  
Never ending lightLet there be, let there always be  
Never ending light  
Let there be, let there always be  
Never ending light
