Waiting for Your Lover

Citizens!

Advisory - the following lyrics contain explicit language:

You've waited your whole life for this night
Feet don't fail me now
You've waited your whole life to get here
Feet don't fail me now
Feels like the world has started spinning upside downWaiting for your lover
With a ring in your hand
Waiting for your lover
Everything could change tonight
Nobody takes risks anymore
But see outside the light is fading
Nobody takes risks anymoreYou said that you'd lost all faith in the world
Feet don't fail me now
Said that all you knew was confusion
Feet don't fail me now
You said that you'd lost all faith in the worldWaiting for your lover
With your life in your hand
Waiting for your lover
Everything could change tonight
Nobody takes risks anymore
But see outside the light is fading
Nobody takes risks anymoreYou never believed that your life could be so easy
You never believed that your words could be so simple
You never believed that the world could sit so easy on your shoulders
And you never believed that you could feel so freeWe were afraid that the life would never live up to your expectations
(That) you never were born too damn clever
Nobody takes risks anymore
But see outside the light is fadingWaiting for your lover
With your life in your hand
Waiting for your lover
Everything will change tonight
