Skunk

Oxymoron

Join the ranks and gang up rather
That's the only way it works
Cos there's no need for struggle
We've got to overcome discords
Just spare some time to think about
What their politics have done
They've torn the youth to pieces
And there will soon be none[chorus:]
Skins, Punks and all you scum
There's a commom aim ahead
Stand proud, together and strong
Fight their rules, not your mates
(Joint you're unruly troops)Join the ranks and gang up rather
That's the only way it works
If you want to be unruly,
Have a say and get a chance
Stick your bloody banners red or blue
All up where they belong
If you cling to their solutions
Then everything goes wrong
