

Knives

Fuel

Give me one good reason
To why your so blind
I covered your back again
And your better cover mineIf I turned and walked away
Would you stick your knives in me?
How much longer till you break?
Until I walk away, walk away from youGive me one good reason
To why you're so unkind
You know I believe, believe it's true
You know I believed in you, ohIf I turned and walked away
Would you stick your knives in me?
How much longer till you break?
Until I walk away, walk away from youIf I turned and walked away
Would you stick your knives in me?
How much longer till you break?
Until I walk away from youAnd if I turned and walked away
Would you stick your knives in me?
How much longer till you break?
Until I walk away, walk away, walk away from you
