

# Piano

## Jimmy Webb

It's the ending of my day  
No one left to say goodbye to, except you, piano  
You're not listening anyway  
You're not even try to but here's one for you, piano  
Seems like it always comes down to me, spinning my piano  
stool  
While you just sit there, grinning like a fool  
One last song I gotta play, don't want to keep you up all night though  
I make it mezzo piano  
Kinda tired in my own way  
Trying to keep myself upright though just like you, piano  
Just keep smiling and I'll play this tune for you  
Just keep smiling and we'll pull each other through  
Softly, we'll play our folding music  
And we'll fade, fade away
